

“The Sefer of Turah, Nebuah, & BiYnah Davar of יהוה”

- The books of the Law, Prophecy, & Wisdom Words of YHWH -

The title name of the three books above is more sounding right than the textbook name of Tanakh. The original word which first spells out as TaNaK (Hebrew: תנ"ך), without the letter “h”, is an acronym for the Hebrew Bible consisting of the initial Hebrew letters (T + N + K) of each of the text's three major parts. Since the ancient Hebrew language had no clear vowels, subsequent vowel sounds were added to the consonants resulting in the word TaNaK.

Here is what the whole textbook of TaNaKH have. The major portions of the Hebrew Bible represented by these three letters are: First sections book is called **Torah** (תורה) meaning “**Instruction**” or “**Law**.”

Somehow, these textbooks were also called the “**Chumash**” חומש meaning: “*The five*”; “*The five books of Moses*.” This was also called the “**Pentateuch**.” As you can see why this is nonsense to have more than two other words for it.

The second sections book is called **Nevi'im** (נביאים) is the meaning of “**Prophets**.” This term is associated with anything to do with the prophets. Prophets (Nevi'im) are those who were inspired, communicated, and commanded by יהוה. The prophet is the messenger of יהוה who speaks for יהוה's creation people. They lead and taught the people the way יהוה wants them to go about.

Third sections book is called **Ketuvim** (כתובים) is the meaning for “**Writings**.” Ketuvim is another separated book, different sections which are history books. It comes with wisdom, poetry, and psalms.

I, Bro. Pouliot believes we need to restore this ridiculous textbook name TaNaKH. Since it is not created by the original Yisraelite leaders who they were also once called Habiru (Hebrew), the wanderer people. They did not come up this ideal named until the name of Jews long after the Babylonian time. These people are not quite the same people who ancient Yisraelite once knew how to call and write יהוה name and its original language in the manuscript textbooks. Long before it was formed all together into one big textbook. The same for the other culture title book called “the Holy Bible”, “The Complete Jewish Bible”, and also the Islam Muslim holy book of “Qur'an”.

Talmud is the next worse textbook because this Jewish textbook is another added books. It's their study guidebook written by rabbis. Yet they force their students to study the Talmud before reading Torah or TaNaKH first. Nowhere in the first instruction book of Torah or the rest in TaNaKH textbook allow us to do that, because יהוה said for HIS people to keep HIS teaching statutes and his instruction

law (Deuteronomy 4:40, Psalm 105:45, 119:2, 34, and Ezekiel 11:20). This also includes how we were not supposed to change the language that was written in all of the first manuscript textbooks. This is another reason why I do not agree with the language of Hebrew or Aramaic, because these two languages aren't the first Semitic languages. You can read more about this reason at https://www.attest.tv/_files/ugd/a9b19d_1f34365a9a114099ab8e837847143cf5.pdf

Here is what I have discovered the correct names for the three sections textbooks: Torah, Nevi'im and Ketuvim. Torah should spell out as "Turah". Nevi'im should spell out as "Nebuah" and Ketuvim is the only word that should be replaced for "BiYnah". Because BiYnah is the proper English word for wisdom words. Here is how I have discovered to learn all this.

- **Turah** - Strong's Hebrew #8451 תורה
 - Pronounced *too-rah*
 - "Torah" due to vowel points
 - Change to "Torah" in English
 - Translated as law
 - Also means direction or instruction
 - Point of reference- Deuteronomy 4:8

- **Nebuah** - Strong's Hebrew #5016 נְבוּאָה
 - Also from #5012
 - Pronounced *neb-oo-aw'*
 - Rendered "Nbuwah" due to vowel points
 - Change to nevuah in English
 - Translated as prophecy
 - Also means prophetic writing
 - Point of reference- 2nd Chronicles 9:29

- **BiYnah** - Strong's Hebrew #998 בִּינָה
 - Also from #995
 - Pronounced *bee-naw'*
 - Rendered "bînâ" due to vowel points
 - Means wisdom, knowledge, meaning, X perfectly, understanding,
 - Point of reference of wisdom - Job 39:26, Proverbs 23:4

Since the language has been evolving for centuries after centuries, we have been losing the first original language. This is why most people do not know what the correct manuscript textbooks and the Creator Father's original name. They kept

changing its name and the Almighty's name God, Jehovah or Allah, which isn't. Few believe it is "Abar" the actual original language name, but still not the correct name.

That is why the other document article above link which I explain a lot about Adamic language, why Shamayin or Semitic language is the first language which Abraham, Shem, and Noah all spoke what Adam had spoken. Because it was the only one language long before the multiple languages came into existence. The name of Semitic was named after Shem's name. Shem's descendant branch (subfamily) name were the future Afro-Asiatic people. This is how why the multiple languages that includes Arabic, Hebrew, Aramaic, Amharic, and the languages of Akkadian and Phoenician. While Adamic or Semitic (first) language was kept alive throughout Shem's descendant multiple branch.

Since evil Nimrod, the grandson of Ham came in power to ruled over the people, where he and the people who follow him build the city (tower) in Babel, everything change. Part of Shem's future descendant branch, end up influence by the people who speak different languages and worship their gods. They were no longer the Yisraelite people. They were divided from them, just as YahuDah (Judah) did too. Now, the Yisraelite or YahuDah we have today in Yerushalayim (Jerusalem), aren't the real Yisraelite people. They do not speak Adamic, the first language or even look like Yisraelite original people.

This is why today, ~~יהוה~~ have been complete silent to Yisraelite and YahuDah (and the people of the world) after Roman Empire. Because we ALLLL have been rebel against HIM. That pretty much like over 2 thousands years ago. It is probably the longest HE has been silent to Yisraelite ever since the Old Testament time. Yet, ~~יהוה~~ still kept HIS words in the dirty manuscript textbooks alive all those years. Waiting for someone to open their eye and see the truth. While the false doctrine books interfere the ONE pure (Holy) scriptures book of the Covenant (Old Testament) of ~~יהוה~~.

Now let's get back to about Talmud. Did you know the Mishnah and the Gemara were formed into Talmud one textbook? Since there are two different Gemaras, there are two different Talmuds: the Babylonian Talmud and the Jerusalem (or Palestinian) Talmud. The Talmud can be thought of as rabbinical commentaries on the Hebrew Scriptures, just like there are commentaries written on the Bible from a Christian perspective. This is where and how the textbook called Tanakh comes along like the Holy Catholic Bible which has the Old Testament and added New Testament (27 textbooks or more) textbooks. They also called this Hebrew Bible. Keep in mind, Tanakh should not be known and confused as the Hebrew Bible, because Tanakh once again does not have this Christian New Testament textbook. Just because the word "Bible" is a Greek word for book, does not necessarily to be called the same thing.

After brief research, I believe there are 63 books in 524 chapters in the complete Talmud textbook. Added to these are four other short tracts, which have not been

included in the regular Talmud. They have been added by later writers and exponents according to Wikipedia and some other websites. All this is not a sacred book of **אֱלֹהִים**. It is all how Rabbi men worked on this change over time.

The Roman-Catholic bible somehow came from the Talmudic influence. Because the Roman Catholic and Eastern Orthodox Old Testament canons contain books not found in the Tanakh, but which were found in the Greek Septuagint. This explained why the New Testament Holy Bible we were told by was written in Greek. This is how and why I know **the books of Tobit, Maccabees, Judith, Sirach, Wisdom and Baruch once were all in the old Catholic Holy Bible**; it is not the Hebrew Old Testament textbooks. Because it is not found in Tanakh? It is also because I have learned that Apocrypha is an Ancient Greek word meaning 'the hidden things'. Why would Old Testament Hebrew textbooks have a Greek word Apocrypha in there in the first place?

The same reason why and how did the Qur'an had the same influenced by the Talmudic way, because Islam and Judaism share similar characteristics. They are both based on a divinely revealed text- the Torah for the Jews and the Qu'ran for Muslims. Both texts are interpreted by means of an oral tradition, the Talmud and the Hadith respectively. Each tradition contains legal and ethical material. The Jewish legal material is called halacha and the Islamic, sharia; both terms mean a pathway, or way to go.

So now, since the Greek and Roman era have taken over the Yisraelite's kingdom, Yisraelite later mix with other tribal people who called themselves Jewish after the Babylonian exile. Now, we have divided Jewish as well. Before Assyrian exile, they were truly the Yisraelite tribal people. After they mixed up along with the Greek and Roman era, everything got worse. This is where and how the New Testament Bible came in and ruined of every doctrine of the Sefer (scripture) of Turah, Nebuah, & BiYnah Davar of **אֱלֹהִים** (or TaNaKH) teachings. This is why I want to tell people why we need to get back and restore the original books of the laws, prophecy, & the wisdom words of **אֱלֹהִים**.

The bottom-line here is, the scripture of Turah, Nebuah, & BiYnah Davar of **אֱלֹהִים** should be left alone as sacred and covenant books of **אֱלֹהִים**. We should not have any other textbooks like the New Testament Bible, Talmud, or Qu'ran. Because it is NOT **אֱלֹהִים**'s words but man alone. It is indeed better that we to restore (change) the name of TaNaKH to "The Sefer of Turah, Nebuah, & BiYnah Davar of **אֱלֹהִים** "
