

## History between the Canaanites and Yisraelites homeland:

According to the Scripture books, the Canaanites have lived in the Southern Levant, which is now recognized as Israel, the Palestinian Authority, Jordan, Lebanon, and parts of Syria. The

Canaanites who have lived there during the Bronze Age (circa 3500-1150 BCE). They've built cities across the Levant around 4000 years ago. The Canaanites are best known as the people who have lived *"in a land flowing with milk and honey"* until they were vanquished by the ancient Yisraelites guided by the true Supreme Father  $\text{E}^{\text{E}}\text{E}^{\text{E}}$ , Creator ONE who made the heavens and Earth.

The Canaanites were a hostile, pre-Yisraelite indigenous population residing in the *"promised land"*. They were conquered by the tribes of Yisra'el under the leadership of YahuSha (Joshua) following their Exodus from Egypt.

In our present day, 21<sup>st</sup> century, the modern-day direct 90% descendants of the Canaanites are the [Palestinians](#) and [Lebanese](#), who share a common genetic heritage with the ancient Canaanites. The other percentage of Canaanites have also evolved along with other several groups, such as the Phoenicians, Edomites, Moabites, and Ammonites, and this also includes the Yisraelites as well. Only the Yisraelites still exist today and are known as YahuDah (Judah) and Samaritans. But they called them self today as Jewish.

Understand this, the identities of the ancient Canaanites people according to the scripture book of Genesis, they are the descendants of Canaan. Yes, the Canaan who is the son line of Ham and the grandson of Noah. The term *"Canaanite"* is also used alongside other descendants of Canaan, such as the [Amorites](#) and [Girgashites](#). As well the [Hittites](#), [Jebusites](#), [Hivites](#), and [Perizzites](#). They as the Canaanites were the Northwest Semitic people and the culture that lived in Palestine and Western Syria sometime around before 1200 BC. That area was variously known as the Kingdom of [Yisra'el](#), [YahuDah \(Judea\)](#), and [Samaria](#) long ancient ago. Under the Roman Empire, YahuDah's sovereignty ended in the Holy Land. By 70 CE, ["Syria Palæstina" was a province that combined Roman Syria and Roman YahuDah \(Judea or Judah\)](#). So, the name of this region changed [from mixed Roman-Judea to Palestine](#), they also called themself [Jewish-Palestinian](#). So, the name Palestine was assigned to the region after the Romans put down the Bar Kochba rebellion around A.D. 135.

The whole point of the Canaanite and Yisraelite homeland is to understand who rightful owner of this [land flowing with milk and honey](#)? Which is the surrounding area from the Red Sea to the Mediterranean Sea, and from the desert of Sinai to the Euphrates River (Exodus 23:31). We already know that the leadership of YahuSha (Joshua) of Yisra'el overtakes this land which the Canaanites once roam in that area for a long time. But, the real ownership of this land or ANYWHERE ON EARTH is the Supreme Father  $\text{E}^{\text{E}}\text{E}^{\text{E}}$ , the Creator ONE who made the heavens and earth. [He has chosen the Yisra'el tribe to take over this promised land where the land flowing with milk and honey is. He also wants HIS house \(Temple\) to be built there as well. This is why HE is the rightful owner and the ruler of this land.](#)

Even if any foreigners, Jewish, or Palestinian rebel and complete against about this truth, they will have to face against [?][?][?].

## Yisra'el-Palestinian Conflict:

As of today (November 2023), we have been witnessing this Hamas – Hamas-Israel war since October 7<sup>th</sup>. This war in Israel which Hamas attacked first; caused this major conflict between the Palestinian and Yisraelites people. Because there had been a long history between them. The conflict has become much trouble and bloodier since Hamas attack Israel. The Palestinian Islamist movement that governs Gaza, began firing rockets at Israel. On October 7, 2023, an armed conflict broke out between Israel and Hamas-led

Palestinian militants from the Gaza Strip. [Not all Palestinian people in Israel are on Hamas's side](#). This is why it becoming more complicated and conflict for the Yisraelites to deal with the Palestinians on trust. Because Yisraelites had a long bad history dealing with the Palestinians in the past; whom had fought in a war against them before. The history of wars between Israel and the Palestinians was first fought in 1948–49, and then again in 1956, 1969–70, 1973, 1982, 1987-1993, and the last one was in 2000-2005. However, long before the 402 years of the Ottoman Empire who ruled over Israel, the Palestinians were the Philistia (Philistines) people back then. They have fought against the Yisraelites a number of times in the ancient. The Philistines defeated the Yisraelites army and captured the Ark of the Covenant (First Book of Samuel 4:1–10). They also fought against King Saul, and his son Jonathan, and a small force of a few thousand Israelite soldiers defeated a massive Philistine force (First Book of Samuel 13:5).

The ancient Greeks were the ones who created the name "Palestine" for Philistia; to describe the five-city area in the Philistine confederacy. The area was known as Philistia, or the Land of the Philistines, and included the cities of Gaza, Ashkelon, Ashdod, Gath, and Ekron. The Romans adopted the term in the 2<sup>nd</sup> century CE and renamed the southern portion of the province of Syria "Syria Palaestina". The Romans identified the Philistines as the worst enemies of the Jews. This is why the British used the name "[Mandatory Palestine](#)" in the 20<sup>th</sup> century to refer to a territory from the former Ottoman Empire. The Sykes–Picot Agreement divided the territory, and Britain secured it via the Mandate for Palestine obtained from the League of Nations. The mandate included an area roughly comprising present-day Israel and the West Bank. While the Philistia was ruled under the Ottoman Empire and the British, they ended up adopting the name "Palestine" over a year.

Over the course period, the Philistia people were no longer the same ancient people after they mixed long with other cultures people throughout time. This is why the Palestinians now have the Greek, Roman, and even the Yisraelites race.

Over the course period, the Palestinians have acquired in some genetic contributions from the Greeks, Romans, and again the Yisraelites as well. There was other who have migrated or invaded in their region long ago. While their original strong ancestry or identity were predominantly the Lebanese, Arab, and Muslim. Therefore, the Palestinians are a diverse and complex people, who have a rich and long history in the region. This is why I, Bro. Pouliot see there is [NO REASON](#) for the modern-day Palestinians and Yisraelites to fight one another because they are kind of the same people. Because they are relative who

also have shared the same long journey experience against the Ottoman, Greek, and Roman Empire. Whether anyone today who are the Jewish, Muslim, Palestinians, or Yisraelites people now living in a foreign land like the United States of America or in the United Kingdom, shouldn't march out in the public street protecting, complaining, and/or blaming against one another. Since they all or both are the same people who have lived in Middle-East or Israel. Just as American, European, African or Asian are all brothers and sisters, cousins, the Children of Shem, Ham, and Japheth.
