

## Is Hot Lava Found in the Scripture books?

---

When **אֱלֹהִים** created the dry land coming out from the water (Gen 1:9). The soil ground is called earth (Gen 1:10). It might not be as clear as of how did the planet earth was form and built into a soil ground out of the water. There is one thing that did not mentioned between the ground of soil and water, it is the core of hot lava. Lava, we know must of come from far deep-down underground earth. We theory believe that these lava that erupted out from a volcano (new form mountain) is what form a future ground. This explanation had to be true, because we have witnesses how these hot lava does end up dry up hard and form into a new land.

So, from what **אֱלֹהִים** did during creation between what the Genesis book said in 1:9 and verse 10 is more of basic information other than a deep details information. Yet, we however do have information throughout the scripture books that mentioned about volcano and hot lava which earth dealt with. There are at lest 17 example. FYI, you will not find the word “volcano”, instead of how the passage verse will often describe a shaking or smoking mountain.
