

WHEN DOES THE 24-HOURS (DAY) BEGAN?

Created by Bro. Pouliot

TIME SYSTEM

First, we need to understand the difference between the Roman-Gregorian and the Creator Father's time system. We have been adopting this Gregorian calendar system in US for the last 271 years. Since the Great Britain and its colonies brought in and decided to use this Gregorian calendar system. From Europe which Pope Gregory XIII ordered, the change of time and law back in October 1582, to modification and replacement of the Julian calendar time system. That was 441 years ago when we changed it again. No one seems to know the proper tracking of time anymore, because we have been following the pagan man way.

The main difference between Julian and Gregorian calendars is that an average year in Julian calendar is 365.25 days while an average year in Gregorian calendar is 365.2425 days. Gregorian calendar is the normal calendar we currently use to determine the date. The Julian calendar was used from 46 B.C to 1582. It was replaced by the Gregorian calendar.

The Julian calendar was used in Rome, not until Pope Gregory XIII wasn't a huge fan of the Julian calendar. He wanted the calendar to reflect the Catholic ideas, so he made the switch to the Gregorian calendar. This is what we use today in America.

Civil calendars worldwide 168 of the world's countries use the Gregorian calendar as their sole civil calendar as of 2021.

𐤀𐤃𐤁𐤀 CREATION TIME SYSTEM VS. PAGAN TIME SYSTEM

According the Covenants law of 𐤀𐤃𐤁𐤀, people have been braking 𐤀𐤃𐤁𐤀's law and time for generations...

"Thus said 𐤀𐤃𐤁𐤀, 'If you could break My covenant with the day and My Covenant with the night so that there be not day and night in their season, then My covenant could also be broken with Dawid My servant – so that he shall not have a son to reign upon his throne – and with the Lěwites, the priests, My attendants" - Jeremiah 33:20-21

"...he shall speak great words against the Creator Almighty ONE, and shall wear out the pure ones of 𐤀𐤃𐤁𐤀, and think to change the set times and law, and they shall be given into his hand until a time and times and half a time..." - Daniel 7:25

PAGAN'S TIME SYSTEM

GREGORIAN CALENDAR

Established by
Pope Gregory XIII
in 1586

Pope Gregory xiii is not the only one who is responsible for changing the time and law. It all started back in the Egyptian, Babylonians, Greece, and Roman history, such as Julian or Mayan all have changed the law of times.

Many nations around the world have been creating their own calendar system, until the majority of the countries follow up the European time system. United States adopted the Gregorian calendar in 1752.

In 1895, George Hudson, an entomologist from New Zealand, came up with the modern concept of daylight-saving time. He proposed a two-hour time shift, while other counties follow up similar by an hour different. We in U.S. America follow up George Hudson's daylight savings idea not until March 31, 1918 (The good news is, the last clock changing will occur with a "spring forward" the month of March of next year 2023).

אֱלֹהִים'S CREATION TIME SYSTEM

According the Covenants law of אֱלֹהִים, אֱלֹהִים's law was not supposed to change! Yet, we the people have many time in the past. Here the warning:

“And now, O Yisra’ēl, listen to the laws and the right-rulings which I am teaching you to do so that you live and shalt go in and possess the land which אֱלֹהִים of your fathers is giving you. “Do not add to the WORD which I command you and do not take away from it, so as to guard the commands of your אֱלֹהִים which I am commanding you” - Deuteronomy4:1-2

“I shall not profane My covenant, Neither would I change what has gone out from My lips.” - Psalm 89:34

Ever since אֱלֹהִים commanded - created (engineer / builder) of everything from heaven to earth, this is the fountain laws that cannot change and MUST not change. He even won't change HIS mind. Once he had created HIS plan by HIS will of HIS laws, it stand firm forever (Deu. 4:2; 7:9, 12:32; 32:4; Psa. 33:11; 89:34; 119:89; 90, Num. 23:19, Isa. 40:8; 54:10 Mal. 3:6, Prov. 30:5-6).

Whatever the law of creation was first built in ancient, stay the way it is as always. Because אֱלֹהִים said so!

First Covenant

This is why when ~~3937~~ created the heaven and earth and finish it on the sixth day, HE then also created another day as "special", a SACRED MEMORIAL seventh day. He MARK this special day for an importation reason.

He made this for HIS creation children and expect HIS children to keep this 7th Day Sabbath as MEMORIAL, by observing this appointed time throughout their generations as a perpetual covenant. It is a sign between HIM and HIS creation forever (Exo. 31:13-17).

First Covenant

When אלהים made the seventh day as a blessing (sacred) memorial day. HE mark this last day of the week as special appointed time, for us to remember how wonderful HE is and how HE created everything in the world etc... (Gen. 1:1-31; 2:1-3; Ex. 20:8-11; Is. 56:6).

He created this time-system from day one to the seventh day, the first weekly cycle. This was also the first COVENANT HE made as memorial for us not to forget forever.

This is why אֱלֹהִים blessed / sanctified this day as the mark of the special day. Because אֱלֹהִים said in Ex. 20:8-11 and verse 20; "...that this day must not (NEVER) be FORGOTTEN but to REMEMBER" And said, "Speak now to Yisrael saying, 'Surely you must keep My Shabbat, for it is a sign between Me and you throughout your generations, so you may know that I AM, the Creator Almighty ONE who sanctifies you.'" (Ex. 31:13). By observing the 7th-Day (Sabbath) and bring this great testimony WHO HE is, that made the heaven and earth. אֱלֹהִים wants us to acknowledge HIS awesome creation hand-i-work, and why HE created another day as day of rest.

Question:

When did the creation day began the 24-hours?

According to Genesis chapter one, verse 14, אֵלֹהִים created the sun, moon and stars on the fourth day as tracking sign (mark) and season of day and year of time. That these sign of lights rule over the day and night. These mark of the season and day of time are what we are supposed to originally track the time cycle.

But... there is more to understand about the "LIGHT"

According to *Genesis 1:4*, this "LIGHT" appear to be the first light other than verse 14. This "LIGHT" is not the same as the sun, moon or any of the stars (verse four).

Because אֱלֹהִים is the **word** and the **light** of the world, see for yourself what many passage verses have say about HIM:

*"For with you is the fountain of life; in your **light** do we see light" - Psalm 36:9*

*"The Master is my **light** and my salvation; whom shall I fear? אֱלֹהִים is the stronghold of my life; of whom shall I be afraid?" - Psalm 27:1*

*"For it is you who **light** my lamp; אֱלֹהִים is my Master lightens my darkness" - Psalm 18:28*

*"The entrance of Your **words** gives **light**; it gives understanding to the simple" - Psalm 119:130*

For the commandment is a lamp, And the law a light; Reproofs of instruction are the way of life. - Proverbs 6:23

The lesson here is this:

If אֱלֹהִים made two great lights: the greater light (SUN) to rule the day and the lesser light (MOON & stars) to rule the night, we can see why this "light" rule over the day and over the night. The daylight owns the WHOLE 24-HOURS DAY, because this "Light" is greater than the darkness, "LIGHT" earn the word "DAY". This is why from dawn before sunrise hours to sundown dusk hours is called daylight and after dusk hours to before dawn hours is called night.

During the spring and fall seasons, there is 12-hours daylight & 12-hours night under the ruler of the 24-hours DAY, we don't see any verse claims NIGHT rule over both, the DAYLIGHT and night.

There is ONE that is much greater than the sun, moon and stars who rule the daylight and the night of the world, it is אֱלֹהִים who is the LIGHT of the world. Genesis 4 once again is HIM that speak of this creation light first.

Remember the "LIGHT" in verse four of Genesis chapter one. This is when the 24-hours DAY began, because אֱלֹהִים created the first words "Let's there be LIGHT". HE began the labor of creation that first day (v. 5) and that time began.

WARNING:

There are among false preachers out there who failed to notice that each passage verses that said *"There came to be evening and there came to be morning, the (1 st, 2 nd, 3 rd etc...) day"* will tell us that evening (or dusk) mentioned first is the beginning of 24-hours day.

Now that you can see why the time of the life began when אלהים created it on the first day. Yet, there is another evidence why water also depend on life. Have you ever heard when people (or scientist) say, "Where There is Water, There is Life"? Is this quote saying true? After reading the whole chapter one of Genesis, we (human) do depend on water for survival and אלהים do give us water to drink when we are thirsty:

"For I will pour water on the thirsty land, and streams on the dry ground; I will pour my Spirit upon your offspring, and my blessing on your descendants" - Isaiah 44:3

OR

"When the poor and needy seek water, and there is none, and their tongue is parched with thirst, I the Master will answer them; I, Almighty Creator ONE of Israel will not forsake them. I will open rivers on the bare heights, and fountains in the midst of the valleys. I will make the wilderness a pool of water, and the dry land springs of water" - Isaiah 41:17-18

So, you can see why the living come out of the water began life, and it give life too. There are more reasons why the living water is importation for us to understand:

"And יהוה will guide you continually and satisfy your desire in scorched places and make your bones strong; and you shall be like a watered garden, like a spring of water, whose waters do not fail" - Isaiah 58:11

"For my people have committed two evils: they have forsaken me, the fountain of living waters, and hewed out cisterns for themselves, broken cisterns that can hold no water" - Jeremiah 2:13

"O Master, the hope of Israel, all who forsake you shall be put to shame; those who turn away from you shall be written in the earth, for they have forsaken the Master, יהוה, the fountain of living water" - Jeremiah 17:13

This is why **ब्रह्मा** began the **life** of the **light** and then HE created the **life** in the waters by forming the earth. Like how and why the LIFE of the flower bloom open during the "DAYLIGHT" and the flower require to have water to live.

Verse 3-5: Then אלהים said, "Let there be light!" and there was light. אלהים saw that the light was good. So אלהים distinguished the light from the darkness. אלהים called the light "day," and the darkness He called "night."

Verse 5 — ...So there was evening and there was morning—one day.

(from the end of day to stop and rest and than rest to sleep for the rest of night until morning.)

As you recently saw the previous slide, you can see why DAYLIGHT is the day that began labor. And the day of the NIGHT is when rest, no labor but sleep. This is why the Creation TIME of LIFE began the 24-hour day at dawn, before sunrise morning. There are also numerous of passage verses point-out why the next day began in the morning:

"And this is what you prepare on the altar: two lambs, a year old, daily, continually. Prepare the one lamb in the morning and the other (second) lamb you prepare between the evenings..." - Exodus 29:38-39

We must understand more about this throughout the scripture books, as of why the daily sacrifice offering always start one in the morning and one at the evening.

"...to offer burnt offerings to יהוה on the altar of burnt offering regularly morning and evening and to do according to all that is written in the Torah of יהוה which He commanded Yisraël;" -
1st Chronicles 16:40

Book of Isaiah 60:1 said: "Arise, shine, for your light has come, and the glory of $\aleph\aleph\aleph$ has risen (or renew) upon you" is just like waking up early in the morning, to live in a new day. To refresh another day.

"We are still alive because the $\aleph\aleph\aleph$'s compassions never fail. They are new every morning! Great is Your faithfulness" -Lamentations 3:22-23

"And so it was, on the next day, that Moses sat to judge the people; and the people stood before Moses from morning until evening." Exodus 18:13

*Didn't it say on the next day
from morning until evening?*

"For after seven more days I will cause it to rain on the earth forty days and forty nights, and I will destroy from the face of the earth all living things that I have made." Genesis 7:4

Did it say night first and days last?

"This is what אֱלֹהִים has said about manna when it appeared in the morning (*Exodus 16:14*) and melted later 'when the sun waxed hot' (v. 21). If the gathered manna was kept till the following morning it would rot (v. 20). Thus, the Yisraelites gathered the manna every morning (v. 21)....

...On the sixth day, the Israelites were to gather twice as much manna in preparation for the Sabbath (v. 5). Thus, 'and it came to pass, that on the sixth day [in the morning] they gathered twice as much bread.'

(v. 22) Moses then said, after the work in the morning on the sixth day: "Tomorrow is a rest, a Shabbat set-apart to $\aleph\aleph\aleph$. That which you bake, bake; and that which you cook, cook. And lay up for yourselves all that is left over, to keep it until morning"- Exodus 16:23

Until what? Tomorrow - morning

"From the rising of the sun to its setting,
my name is great among the nations, and in every
place incense is being presented to my name, and a pure
offering. For my name is great among the nations,"
says יהוה of hosts.." Malachi 1:11

Why not the downing of the sun to its setting?

Notice what it said in Nehemiah 13:19:

"And it came to be, at the gates of Yerushalayim, as it began to be dark before the Sabbath, that I commanded the gates to be shut and commanded that they should not be opened until after the Sabbath. And I stationed some of my servants at the gates, so that no burdens would be brought in on the Sabbath day".

*They always shut the gate every night (all night) and kept it shut for the whole Shabbat day as well. Meaning, the gate are kept shut from dawn of the morning until the next dawn of the first day.
Then the gate reopen on that first day morning.*

Day of Atonement:

Let read in Leviticus 23:27 and see what אלהים commanded Moses to tell the Yisraelites what to do:

:27 “on the **tenth** day of this **seventh month** there shall be a **DAY of ATONEMENT**: it shall be a holy convocation unto you, and ye shall afflict your souls, and offer an offering made by fire unto אלהים”.

:28 And ye shall do **no work on THAT SAME DAY**: for it is a day of atonement, to make an atonement for you before אלהים your Creator ONE.

:29 For whatsoever soul it be that shall not be afflicted **on THAT SAME DAY**, he shall be cut off from among his people.

Day of Atonement:

:30 And whatsoever soul it be that doeth any work on THAT SAME DAY, the same soul will I destroy from among his people.

WHAT DAY IS THAT SAME DAY is???

:31 Ye shall do no manner of work: it shall be a statute forever throughout your generations in all your dwellings.

:32 It shall be unto you a sabbath of rest, and ye shall afflict your souls: in the ninth day of the month at even, from even unto even, shall ye celebrate your sabbath”.

Day of Atonement:

Why did verse 32 say 9th instead of 10th day? While the "SAME DAY" is on the 10th day, which is the Day of Atonement.

It is because the 24-hours day period start at dawn instead of evening dusk.

The main reason for the 9th day of the 7th month is for us to be fasting. We must FAST our body before the Atonement day. Just like how our doctor orders us to fast on the evening before the surgery on the next day. This way our stomach will be empty as holy for the sabbatical Atonement day Day.

We can NOT automatically take as conclusion that the "EVENING" is, therefore, the beginning of the day, because it mentioned first in our modern-day scripture English understanding. We must put our mind set the ancient interpreter way how the ancient people describe the creation story. Like when we read the red octagon's shape without a word, we will be able to understand that this mean STOP. Or a white flag waving on the stick, is a message of desire to surrender for peace, to be unarmed. Since our modern English and Hebrew are not the same as how the ancient language were written and understood. Before Hebrew/Aramaic typography, ancient wrote in pictograph. Image instead of words.

"...the path of the righteous is like the light of dawn, which shines brighter and brighter until full day" - Proverbs 4:18

A composite image of the sun, moon, and Earth from space. The sun is a bright, glowing orb in the upper left. The moon is a large, cratered sphere in the upper right. The Earth is a blue and white planet in the lower center, partially obscured by a bright light source. The background is a dark, starry space.

*Let's Us Better Understand the
Hours of the Day*

CLOCK HAD BEEN AROUND

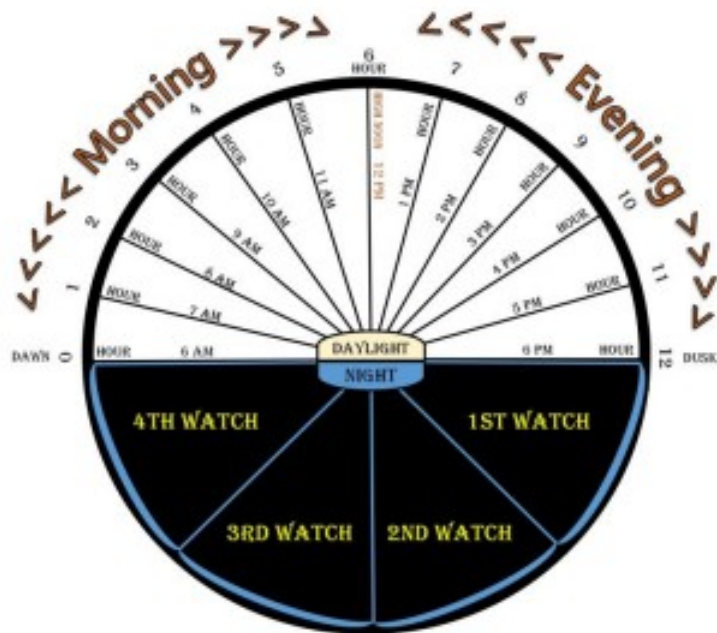

People believe sundials were introduced by the ancient Greece or ancient Chinese nor much further time in the ancient Egyptians day. The truth is, it much further back in the day of king Hezekiah of Judah, according to Isaiah (chapter 38, verse 8) is the earliest mention about sundial of Ahaz.

Adjustments to calculate clock time from a sundial reading — Sundials tell the time from the sun. The hour lines on the dial measure the passage of the shadow cast by the gnomon in intervals of one hour at a time.

SUNDIAL TO CLOCK

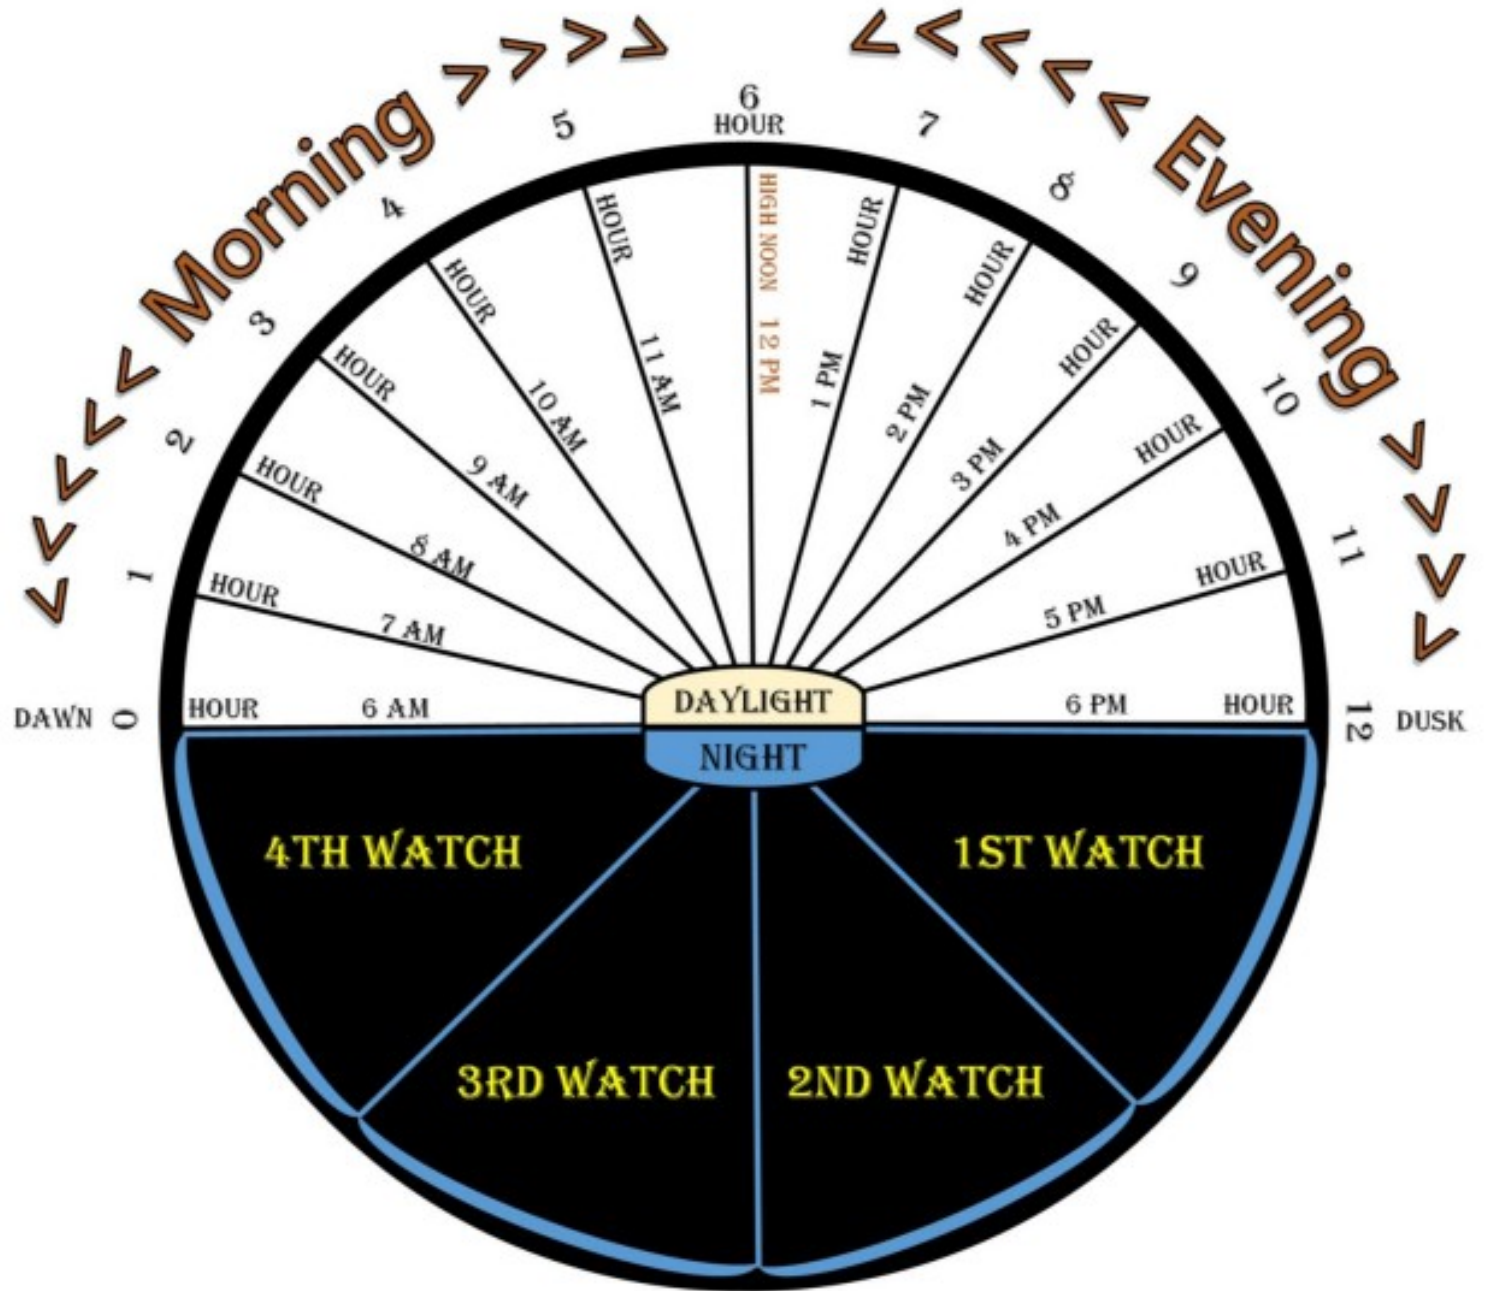

Earliest sundial was made to set for zero to 12th hours before the divided tribe became paganism of their own culture and tradition. Sundials typically was supposed to only have 12th hours on them (the 12 daylight hours) since they can't be used at night. Yet, the paganism have changed their sundial number from zero hour to 6 AM to 12th hour to 6 PM. Because they use the hours for the night as well. From 6 PM to 6 AM, is another 12 hours. They change their own time system. Now we have a modern-day clock that totally different from the sundial.

This time system clock is based on daylight hours and night-watch hours. The daylight hours is typically based on the perfect even (equal) 12 hours daylight during the spring & fall season only.

DO NOT FOLLOW THIS TIMETABLE METHODS PERFECTLY DURING THE SUMMER & WINTER.

The night-watch hours was divided in three-hour segments. The night hours system are used for soldiers who are out guarding at the gates or standing on the top of the watch-towner. Each soldiers take turn to watch out for any enemy approach for up to 3 hours.

BRIEF HISTORY

- ***"...a sacred day of rest on the 7th day (the Sabbath). Days were reckoned from morning to morning..." - New Catholic Encyclopedia, Vol. 11, pg. 1068***
- ***"Following the reign of King Josiah (c. 640-609), and especially after the Babylonian exile, a number of significant and enduring changes occurred in the Israelite calendar showing that the Jews gradually adopted the Babylonian calendar of the time...The day however, was counted from evening to evening, after the Babylonian fashion...." - New Catholic Encyclopedia, Vol. 11, section titled "Later Jewish Calendar".***
- ***"shortly after the beginning of the Greek period (236 B.C.) came the change in the method of reckoning the day, - The Calendars of Israel," page 146***
- ***"The Jewish daytime hours began with dawn and ended with sundown, which began the next day. The hours are seasonal, so the length of the daylight hours varied with the season of the year. The Romans began their day at midnight and counted 12 hours to high 12 noon and then 12 more hours from noon to the next midnight..." - The Jewish Book of Why, volume I, page 148.***

BRIEF HISTORY

- *During the first and second Temple period, the day was reckoned according to the astro-luni-solar calendar on an EAST-WEST perpetual time continuum. The Temple was opened during the daylight and closed during the night. The services began at sunrise, marked in the EAST by the sun, and were finished at sunset in the WEST when it set. Thus, the “day” of the Temple consisted of only half a civil calendar day, from sunrise to sunset and EAST to WEST. Yet Aaron was commanded in Leviticus 24:3-4, to order the seven lamps of the Menorah from sunset to sunrise, representing the period of night when the moon and stars rule by measuring time, when the sun is not present at all.*

“He made the moon for appointed times; the sun knows its going down.”

- Psalm 104:19

“Sound the ram’s horn at the New Moon, and when the moon is full, on the day of our festival,” - Psalm 81:3

“...and whenever burnt offerings were offered to יהוה on Shabbatot, New Moons and the feast of festivals. They were to serve regularly before יהוה, the Sovereign ONE, according to the proper number in the manner prescribed for them.” - 1st Chronicles 23:31

“And it will come to pass, that from one New Moon to another, and from one Shabbat to another, all flesh will come to bow down before Me,” says יהוה, Sovereign ONE.” - Isaiah 66:23

New Moon at ZERO %

Day of Gladness

&

Day of Trumpets

1st Day of 1st moon (Month)

1st Day of 7th moon (Month)

Here is another reason why we must know this is true about the new moon day, as complete full dark shadow moon. Can't see the moon. According to what Psalm 81:3/4 said, full moon (as full light of the moon) always land on the Passover day and the first day of the festival of tabernacles. 100% New Moon & 100% Full Moon.

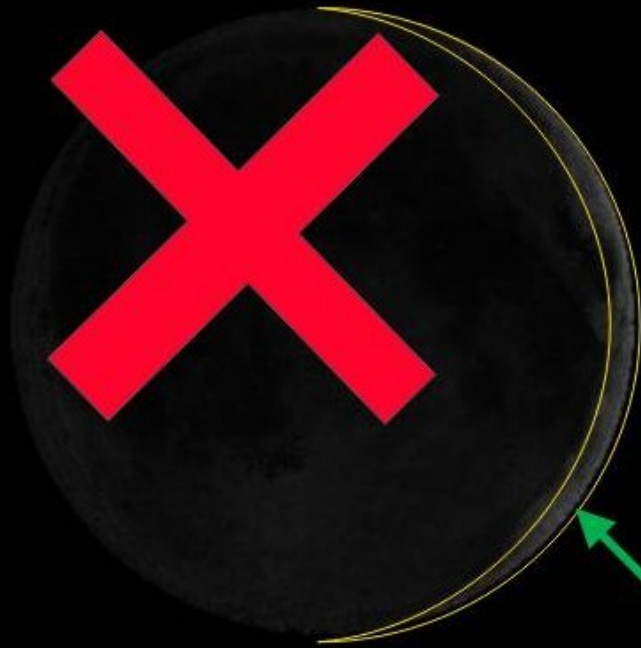

"Blow the shofar at the head of the moon, and when the moon is full, on the day of our festival."

Full Moon at 100%

Sacrifice of Peace Offering Day

& Day of the Festival of Last Ingathering

אֱלֹהִים said, "Let there be lights in the vaulted dome of heaven to separate day from night, and let them be as signs and for appointed times, and for days and years..."

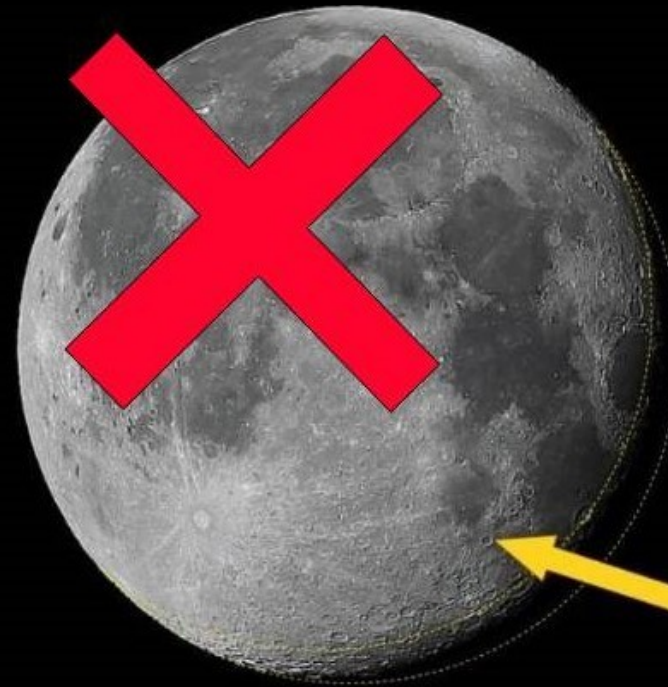

These lights are the sun, moon, and stars that gave us the sign of time to determine the appointed seasons, from day and night. אֱלֹהִים made the moon for appointed times of the month cycle (Psalm 104:19).

When the sun shine up in the sky, it's completely day-lights. When the sun is way below the horizon, passed the dusk of ray of evening light, it completely dark as night.

During the night, we don't see the round shape of the sun, but during the day, we can see the shape of the sun. The sign of day and night as well.

The same for the New Moon, it had to be complete 100% full shadow dark gray moon (normally it's hard for us to see it with our naked eyes). The same for the Full Moon, it had to be 100% full round moon light.

An appearing light at 7% waxing crescent moon is not a New Moon at all. It had to be completely zero %.

If those other who falsely practice the "New Moon" which give out some appearing light at the edge of the moon. A moon like 5% to 7% of waxing crescent on the moon, will end up seeing 98% to 96% waning gibbous moon on the Sacrifice of Peace Offering Day and on the first Day of the Festival of Ingathering week. After counting 14th/15th day from the first day of the New Moon (month).

This is not a 100% full moon.

This is why the appointed first day New Moon cannot not give out some light on the edge of the moon. Just as a birth child isn't one full year old. Even from zero to one hour, from dawn to sunlight appearing is how the day begin. The same for the first day of the month.

Hopefully, you now get to see how the true 24-hours (day) starts from DAWN, before sunrise MORNING. From ZERO hour to the 12th hours of the daylight. While the remainder of the other 12-hours NIGHT of the DAY is during the time people sleep. 12 plus 12 hours equals 24-hours ruler of the DAY.

That all flok
