

# EARTH DO NOT MOVE

The first time I, Bro. Pouliot have discovered why earth do not move like how I was taught from childhood school, when I was reading several scripture books in 1<sup>st</sup> Chronicles 16:30, Psalm 93:1, and Psalm 104:5-6. After reading those scripture, I was a bit skippy about it at first. Like what?... is this passage verses telling me that earth do not move? Like earth do not rotate itself or around the sun perhaps, nor perhaps both? Is that what these scripture telling me? It took me a while to figure out whether that was true or not. I did investigation research on this for a while, and it turned out to be true.

- *“Tremble before Him, all the earth! The world is firmly established—it does not be moved.”*
- *“<sup>אֱלֹהִים</sup> is king; he clothes himself with majesty. <sup>אֱלֹהִים</sup> clothes himself; he girds himself with might. Yes, the world is established so that it cannot be moved.”*
- *“He established the earth on her foundations, so it should not be moved forever and ever. You covered it with the deep as with a garment. The waters stood above the mountains.”*

Very long time ago, during Christopher Columbus time. People back in the 16<sup>th</sup> century, most people believe earth were flat other than spherical planet earth. Because of how often they have seen ship end up disappear in the far-off sea, like the ship must of fall off the earth's edge. Sailor during those day warned people not to sail out too

far. Christopher Columbus knew that earth was not flat but circle while showing people the example of a pear-shaped. Many people did not believe in him and even laugh at him. Christopher did experience all this laugh at like how I might end-up experience that too. Because of how I beginning to believe that our spherical planet earth does not move at all. While the sun and many stars rotate move around the earth. Here, in this document article, I will explain why I starting to believe all this.

Notice how our moon orbiting around the earth but the moon itself does not rotate. We never seen the back of the dark side of the moon. Isn't that strange if scientist say every planets out in space rotate around itself? Maybe that might be true, maybe some of these star's planet do not rotate itself like our moon do. If the moon does not rotate itself, therefore it is more likely earth wouldn't rotate also.

Other reason that caught my attention to think earth do not rotate move itself and do not rotate around the sun at all. It is the north star know as Polaris got me to think earth dose not rotate around the sun at all. Because this Polaris star from our naked eye does not seem to be moving like every other stars in the night sky. Every stars appear to be circling around to that north star. FYI, in our modern-day technology, we can speed up the video and up close this Polaris star and see that this north star actual move. Not as much as ever other stars do. This is because Polaris star is very near to the north celestial pole end point. This is why all of these stars along with the sun and our solar planets are rotate around to this north celestial pole.

According to Job 26:7:

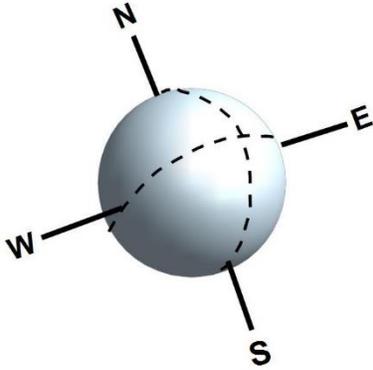

*“He stretcheth out the North over the empty place, and hangeth the earth upon nothing.”*

This above passage verse just might give us the evidence that hold everything in the universe because the way we see how the north celestial pole along with all the stars, sun, and moon rotate around.

I also believe this celestial pole from north and south pole of this celestial have some kinds of magnetic field that hold all this. I also believe the gravitational force come from this magnetic force along with this celestial pole. Which explains how the earth hold it place in this center of everything in the universe. I know most scientist do not agree with this facts. There is one way to see why that is. Do you know when we weight a person anywhere on the earth's equator area weighs less than those who stand at the North or South Pole area? The person body itself does not change, rather it is just the force of gravity that change when a person approach at the north or south poles area and anywhere at the equator area. The further away we stand from the North Pole, our weight change.

I believe the invisible celestial pole from north and south somehow control the rest of the universe, which explains why we see during the night sky all the stars, moon and sun rotate around the earth. This is why earth is the center of this of this celestial pole in the universe. Another possible reason why earth is so different from every other planets in the universe. Earth is not a perfect ball shape like every planets in our universe. Our planet earth is a spherical planet. According to scientists (and maybe astronomers was involvement in this mathematical measures), the equatorial circumference of the earth is about 24,900 miles (40,070 km). Different from how the meridional circumference from pole-to-pole is only 24,812 miles (39,931 km) around the earth.

Some believe earth is actually a flat planet with a doom over it. This simply cannot be true, because when a person is sailing on a ship or flying on a plane will realize the difference between going north from south and going west from east does not measures it distance the same. Most of all, according to Psalm 103:12, it said **“As far as the east is from the west, so far hath he removed our transgressions from us.”** This passage helps us understand why going west from east will always stay west or going east from west will always stay east. This result

because it continues where there is no end. Which this difference from going north or south, because going north dose not continue to stay north, it will become south. Just as going south will become north. This is why earth cannot be a flat pancake planet. Most of all, the rest of the supporting scripture like Genesis 28:14, Isaiah 11:12, Job 37:3, and Ecclesiastes 1:6 all point out why earth is not a flat planet earth.

There is an interesting facts, there was someone who has filmed a planet of Venus. To obverse Venus how it orbited around the sun. He notices the size of the light reflects from this Venus grew bigger while orbiting the sun. After it pass by the sun, it appears that it come closer to the earth. The distance between the earth and sun, it is appearing coming towards closer to the earth then it is away from the sun. Because of how this reflects light of the Venus change it size while orbiting around the sun. Most scientists somehow didn't notice how can this Venus that is coming behind the sun, starting to appear to be closing to earth still orbiting the sun and not of the earth? Like both Venus and the sun seem like orbiting the earth. You can see for yourself how that possible from this video example at <https://www.youtube.com/watch?v=4kyaXZ8ed3s>

Planet Mercury also appear to be orbiting along with Venus and the sun. Meaning, all three, the sun, Venus, and Mercury orbiting around earth because Mercury is the smallest planet in our solar system. It is also because Mercury is the closest planet to the Sun and earth as well. Most of all, Mercury also appears to be orbiting around the sun faster than any other planets in the solar system. This is another reason why all planets in the universe along with the sun are orbiting around the planet earth.

So again, all planetary had to be orbits around the planet earth, not the sun alone. The sun cannot be the center of the universe that hold everything in our solar system. Here another reason why that is. Remember the story about Joshua's day when the sun and moon stood still during the battle? When he and the Israelites entered the Promised Land, they waged battle against five armies which laid siege to the Gibeonites. Joshua had promised to protect the Gibeonites, so he led an army and defeated the five kings. Joshua prayed ~~for~~ for help. Asked ~~for~~ to have the sun stop moving until the battle end etc... ~~for~~ did accept his request and did control the sun and moon to stop somehow. I believe what ~~for~~ did was to stop the pole of the north celestial. The whole universe of sun, moon and even the stars stop spinning. It is because earth is actual the center of our solar system.

As you can see, the sun and moon did stop during Joshua's day... shouldn't these people start flying off the ground or keep falling to the ground if earth do rotate itself move like how we were taught alone by man education system? With no gravitational force apart from the sun? Now we know the sun have nothing to do with us gravitational to the earth. This is why earth does not move.

Other thing we must understand also, why on earth does this moon do not rotate itself as well? We never saw what behind the dark side of the moon. Since this moon only rotates around earth and NASA never took a photo of this, why is that? That is because NASA scam lied us about the 1969 moon landing history. Even why haven't NASA still haven't had their so-called satellite to take a picture of it? It is because no human had ever gone out of the earth's atmosphere to far space.

The real basic lesson we need to better understand is, earth appear in the void of the empty darkness universe during the creation first. Before sun, moon and stars appear according to Genesis chapter one. We can see why earth is the center of the universe once again. What more interesting is, back in the very old day, people once knew better about north celestial pole before the North Pole was named after it. Because they once know what the term "navel" was anciently used in many languages for "centre," and that the Pole, or central point of the revolving constellations, was the "Navel of Heaven." But as to the

celestial Pole there corresponds a terrestrial one, so it is only natural that to the term the "Navel of Heaven" there should be the corresponding expression the "Navel of the Earth."

And at last, let talk about historical witnesses. The first historical witnesses mentioned in Joshua 10:13 about the Book of Jasher which is an English translation of the Hebrew title Sefer haYashar, which means the Book of the Upright or the Book of the Just Man. Where in the book of Jasher claimed this witnesses of event? It is found in chapter 88, verses 63-65. The book of Jasher isn't the only historical witnesses about the daylight last twice days in one, there are more than one.

There is a man name Totten who have discovered and learn about the Greek historian man name Herodotus who wrote his visited in Egypt, the priests there showed him an ancient manuscript which told the story about the day which lasted about twice as long as a normal day.

The second secular source that Totten also discovered and discuss about the lost ancient Chinese manuscript. In 1810, a man name John Gill presents about this account:

In the Chinese history it is reported, that in the time of their seventh emperor, Yao, the sun did not set for ten days, and that men were afraid the world would be burnt, and there were great fires at that time; and though the time of the sun's standing still were enlarged beyond the bounds of truth, yet it seems to refer to this fact, and was manifestly about the same time; for this miracle was wrought in the year of the world 2554, which fell in the 75<sup>th</sup>, or, as some say, the 67<sup>th</sup> year of that emperor's reign, who reigned 90 years.

There is also another historical witnesses that differ from the longest daylight, there were five different tales in North America who witnesses the longest night that was normal.

1. The Ojibways tell of a long night without any light.
2. The Wyandot Indians told missionary Paul Le Jeune of a long night.
3. The Dogrib Indians of the North-West tell of a day when the sun was caught at noon, and it instantly became dark.
4. The Omahas say that once the sun was caught in a trap by a rabbit who checked his traps at the break of dawn, presumably before sunrise.

5. And finally, the Bungee Indians from the Lake Winnipeg area of Canada also tell of a long night.

That is not all, the Central and South Americas also witnesses longest night as well. In the Annals of Chauhtitlan, the Mexican Indians also tell tales of a long night. The Aztecs wrote of an extended period of time that a sun didn't rise up.

There is one last evidence that might surprise you. There is an ancient object measures just over a centimeter in diameter. It is a Seal of Hezekiah and it is also known as a bulla of king Hezekiah. A seal impression of two-winged sun disk flanked by ankh symbols and containing a Hebrew inscription that reads "Belonging to Hezekiah, (son of) Ahaz, king of Judah." The bulla was discovered along with 33 other stamped bullae during wet-sifting of dirt from a refuse dump located next to a 10th-century BCE royal building in the Jerusalem Ophel. It was discovered excavations led by Dr. Eilat Mazar. The reason why this is an evidence, a proof of evidence of what King Hezekiah witnessed what **אֱלֹהִים** did to the sun, was a miracle event.

According to Isaiah 38:8, Hebrews 11:34 and 2 Kings 20:1-11, Isaiah came back to visited King Hezekiah again (Yes, this is the same king's name which the two-winged sun disk was made during his time), because Hezekiah prayed **אֱלֹהִים**. First prayer he spoken to have **אֱלֹהִים** be glorified in the defeat of Sennacherib's army and the second prayer was about his welfare illness health to death. **אֱלֹהִים** send Isaiah

back to visit Hezekiah again, with the good news. The good news is that he would not die. **אֱלֹהִים** also gave Isaiah the answer he knew Hezekiah will ask for proof. When King Hezekiah did asked Isaiah for proof, Isaiah reply by asking Hezekiah **"do you want the shadow of the sun go forward ten steps or back ten steps?"**. King Hezekiah replied to the prophet Isaiah for the shadow to go backward ten steps. **אֱלֹהִים** did move the sun backward. Hezekiah was amazed to see how the sundial shadow went backward 10 step. This symbols royal seal of the sun and two-winged disk are the proof of evidence that Hezekiah is the real person. A real historical ancient king who saw what **אֱלֹהִים** did to the sun. He is one of the famous royal king written in many historical books other than the scripture books. We cannot deny all this, especially the miracle event King Hezekiah saw and how he ends up live another 15 year after he was was illness to death.

So, as you can see... even it might be so hard for you to find a hard evidence to proof why our world does not move like the rest of the universe stars, sun and moon do. Whether the scripture books said the sun in the past did move

backward or just stop, it does not matter whether you do not believe it, because it did really happen. Our planet earth isn't going anywhere and isn't the same as other universe planets as well. Because earth was created first and our planet earth isn't a round shape ball like many other planets. Since earth is spherical planet and it is somehow hung by the celestial pole. Everything in the universe move around this the celestial pole where earth is.
