

Earth Do NOT Move

There was a time I, Bro. Pouliot was reading several passages in the scripture books like 1st Chronicles 16:30, Psalm 93:1, and Psalm 104:5-6. After reading those scripture passages, I noticed how it mentioned earth does not move. Like earth does not rotate itself or around the sun perhaps, nor perhaps both? Is that what this scripture telling me? I was a little bit skippy about that at first. Because we the people were taught since childhood school that the earth spins around and rotates around the sun. It took me a while to figure out whether that was true or not. I did start doing the investigation into that matter, to find out whether it was true or not, and it turned out to be true.

- *“Tremble before Him, all the earth! The world is firmly established—it does not be moved.”*
- *“~~אֲדֹנָי~~ is king; he clothes himself with majesty. ~~אֲדֹנָי~~ clothes himself; he girds himself with might. Yes, the world is established so that it cannot be moved.”*
- *“He established the earth on her foundations, so it should not be moved forever and ever. You covered it with the deep as with a garment. The waters stood above the mountains.”*

A very long time ago, during Christopher Columbus's time. People back in the 16th century, most people believe that the earth was flat other than the spherical planet Earth. Because of how often they have seen a ship end up disappearing in the far-off sea like the ship must of fall off

the earth's edge. Sailors during those days warned people not to sail out too far because they never return. Christopher Columbus knew that the earth was not flat but a circle like a moon or a sun, and he tried to show people the example of a pear-shaped. People laughed at him and didn't agree with him. I have a reason to believe he already knew about the circle of the earth from what the Bible said. While he did some science mind figured it out.

I am beginning to believe that our planet Earth is shaped as spherical instead of the perfect round ball. According to a few different scientists throughout history have scientific measure the earth. This brings me to an understanding view of NASA and the flat-Earth conspiracy theory. Two things got my attention, I discovered that our moon orbits around the Earth but itself does not rotate. Because we the people never see the back of the dark side of the moon.

The second reason to support that Earth is a spherical planet. If I am looking at the moon from the north pole and again looking at the moon while visiting the south pole, the moon will be visual upside down. We cannot deny the fact that the Earth is not flat.

There is a third reason to see why the Earth is a spherical planet. If we happen to have the best quality telescopes at home, we might be able to caper the planet Mar in a clear visual. Mar is the closest visual from Earth to get a good clear image of the planet during the night sky. And it's not a flat planet as well. Once we capture the planet Mar, we might be able to see the polar cap on the top and bottom of planet Mar. Since our planet, Earth also does have a polar cap top and bottom (north pole & south pole), the same way Mar has as well. We cannot dent that as well.

The fourth reason is, is how I've watched the fast-forwarded video of all the stars that rotate around the center of the North Star (Polaris). Same thing for the south celestial pole endpoint. This caught my attention to the question of why the north and south celestial pole endpoint looks like it doesn't move around as the other stars do. Caught me thinking the Earth does not

rotate or move around the sun at all. This North Star - Polaris from our naked eye once again does not seem to be moving as every other star does in the night sky.

While I was doing the research along with the scripture books, I noticed something might fit all this wonder.

“He stretcheth out the North over the empty place, and hangeth the earth upon nothing.” - Job 26:7

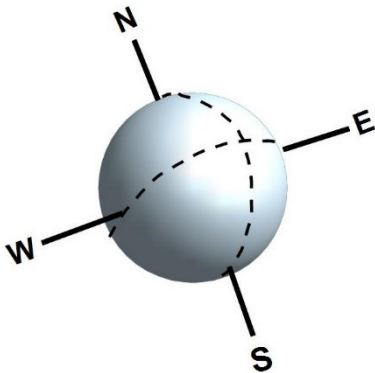

That passage verse just might give us evidence of what and how everything in the universe holds, because this had to fit with the north and south celestial poles along with the stars that rotate around the earth.

Do you know what is still strange about, if scientists say every planet out in space rotates around itself? Maybe that is true or just maybe some of these star's planets do not rotate themselves like our moon does. [If the moon does not rotate itself, this just might explain another reason why Earth does not rotate as well.](#)

While still doing the research, I had a lot of thoughts about the celestial pole from north and south that might explain the earth's magnetic field. That this magnetic field is coming from between both celestial poles to hold the earth. Just like how Job 26:7 points out like. I also believe the gravitational force comes from this magnetic force as well. This explains how everything is held upon Earth, like this proof of the reason why Earth is the center of everything in the universe. I know most scientists do not agree with these facts. Maybe a few out there who possibly might agree with me.

There is one interesting fact I have learned about, that could support my belief about the gravitational force coming from the magnetic force. The weight of person who is standing anywhere on the earth's equator area would weigh less than those who stand on the North or South Pole area. The person's body itself does not change, rather it is just the force of gravity that changes when a person approaches the north or south poles area and anywhere at the equator area. The further away we stand from the North Pole, the more weight changes.

I believe the invisible celestial pole from north and south somehow controls the rest of the universe, which explains why we see during the night sky all the stars, moon, and sun rotate around the earth. This is why the Earth is the center of this celestial pole in the universe. Another possible reason why Earth is so different from every other planet in the universe. Earth is not a perfect ball shape like every other planet in our universe. Our planet Earth is spherical. According to scientists (and maybe astronomers was involvement in these mathematical measures), the equatorial circumference of the earth is about 24,900 miles (40,070 km). Different from how the meridional circumference from pole to pole is only 24,812 miles (39,931 km) around the earth.

While some believe Earth is a flat planet with doom over it. This simply cannot be true, because when a person is sailing on a ship or flying on a plane will realize it circles. And, going north from south and going west from east does not measure it distance the same. According to Psalm 103:12, it said: "As far as the east is from the west, so far hath he removed our transgressions from us." This passage helps to prove to us why going west from the east will always stay west or going east from the west

will always stay east. This result is because it continues where there is no end. This difference between going north and south is because going north does not continue to stay north, it will become south. Just as going south will become north. This is why Earth cannot be a flat pancake planet. Most of all, the rest of the supporting scripture like Genesis 28:14, Isaiah 11:12, Job 37:3, and Ecclesiastes 1:6 all point out why the earth is not a flat planet earth anyway. This result is because it continues where there is no end. This difference between going north and south is because going north does not continue to stay north, it will become south. Just as going south will become

north. This is why Earth cannot be a flat pancake planet. Most of all, the rest of the supporting scripture like Genesis 28:14, Isaiah 11:12, Job 37:3, and Ecclesiastes 1:6 all point out why the earth is not a flat planet earth anyway.

After all the research I have discovered why NASA and the flat-Earth conspiracy theory taught us this false education, whether they knew they were lying to us or not. There are more interesting facts I have discovered more evidence against NASA and the flat-Earth conspiracy theory. There was someone who filmed the planet Venus while he was doing his research. To observe Venus and how it orbited around the sun. He notices the size of the light reflecting from this Venus grew bigger while orbiting the sun. After it passes by the sun, it appears that it comes closer to the earth's distance between the earth and the sun. While it appears to be coming closer to the earth then it is away from the sun. This is when he realizes how this reflects light of Venus changes its size while orbiting around the sun, pointing out why Earth couldn't orbit around the sun. Why hadn't scientists noticed Venus coming behind the sun, starting to appear close to Earth still orbiting the sun and not of the earth? Both Venus and the sun seem like orbiting the Earth. You can see this video example for yourself -

<https://www.youtube.com/watch?v=4kyaXZ8ed3s>

Planet Mercury must also orbit along with Venus around the sun. All three, the sun, Venus, and Mercury orbit around the earth. Because Mercury is the smallest planet in our solar system, and it is also because Mercury is the closest planet to the Sun and Earth as well. Most of all, Mercury also appears to be orbiting around the sun faster than any other planet in the solar system. This is another reason why these planets along with the sun are orbiting around Earth.

So again, not just two planets and the sun orbits around the planet Earth, all planets in the universe along with the sun are orbiting around the planet Earth. This is why I no longer believe the sun is the center of the universe that holds everything in our solar system. It is the earth that centers the whole universe. Even the Genesis book, chapter one can prove this fact. That earth was created first in the dark universe before the sun, moon, and stars appeared.

Remember the story about Joshua's day when the sun and moon stood still during the battle? When he and the Israelites entered the Promised Land, they waged battle against five armies that laid siege to the Gibeonites. Joshua had promised to protect the Gibeonites, so he led an army and defeated the five kings.

Joshua prayed for help. Asked to have the sun stop moving until the battle ended etc... did accept his request and did control the sun and moon to stop somehow. I believe what did was to stop the pole of the north celestial. The whole universe of the sun, moon, and even the stars stops spinning. It is because the Earth is the center of our solar system.

As you can see, the sun and moon did stop during Joshua's day... shouldn't these people start flying off the ground or keep falling to the ground if the earth does rotate itself move like how we were taught along by the man education system? With no gravitational force apart from the sun? Now we know the sun has nothing to do with us gravitational to the earth. This is why the earth does not move.

Another thing we must understand also, why on Earth this moon does not rotate itself as well. We never saw what was behind the dark side of the moon. Since this moon only rotates around the earth and NASA never took a photo of this, why is that? That is because NASA scam lied to us about the 1969 moon landing history. Why hasn't NASA still had their so-called satellite to take a picture of it? It is because no human has ever gone out of the earth's atmosphere to far space.

The real basic lesson we need to better understand is, earth appeared in the void of the empty darkness universe during the creation first. Before the sun, moon, and stars appear according to Genesis chapter One. We can see why the Earth is the center of the universe once again. What is more interesting is, back in the very old days, people once knew better about the north celestial pole before the North Pole was named after it. Because they once knew that the term "navel" was anciently used in many languages for "center," and that the Pole, or central point of the revolving constellations, was the "Navel of Heaven." But as to the celestial Pole, there corresponds to a terrestrial one, so it is only natural that to the term the "Navel of Heaven," there should be the corresponding expression the "Navel of the Earth."

And finally, let's talk about historical witnesses. The first historical witness mentioned in Joshua 10:13 about the Book of Jasher which is an English translation of the Hebrew title Sefer haYashar, which means the Book of the Upright or the Book of the Just Man. Where in the book of Jasher claimed these witnesses of the event? It is found in chapter 88, verses 63-65. The book of Jasher isn't the only historical witness about the daylight lasting twice a day in one, there is more than one.

There is a man named Totten who has discovered and learned about the Greek historian man name Herodotus who wrote his visit to Egypt, the priests there showed him an ancient manuscript that told the story about the day which lasted about twice as long as a normal day.

The second secular source that Totten also discovered and discuss about the lost ancient Chinese manuscript. In 1810, a man named John Gill presents this account:

In the Chinese history it is reported, that in the time of their seventh emperor, Yao, the sun did not set for ten days, and that men were afraid the world would be burnt, and there were great fires at that time; and though the time of the sun's standing still were enlarged beyond the bounds of truth, yet it seems to refer to this fact, and was manifestly about the same time; for this miracle was wrought in the year of the world 2554, which fell in the 75th, or, as some say, the 67th year of that emperor's reign, who reigned 90 years.

Other historical witnesses differ from the longest daylight, five different tales in North America witnessed the longest night that was normal.

1. The Ojibways tell of a long night without any light.
2. The Wyandot Indians told missionary Paul Le Jeune of a long night.
3. The Dogrib Indians of the North-West tell of a day when the sun was caught at noon, and it instantly became dark.
4. The Omahas say that once the sun was caught in a trap by a rabbit who checked his traps at the break of dawn, presumably before sunrise.
5. And finally, the Bungee Indians from the Lake Winnipeg area of Canada also tell of a long night.

That is not all, the Central and South Americas both witness the longest night as well. In the Annals of Chauhtitlan, the Mexican Indians also tell tales of a long night. The Aztecs wrote of an extended period that the sun didn't rise.

There is one last piece of evidence that might surprise you. There is an ancient object that measures just over a centimeter in diameter. It is a Seal of Hezekiah, and it is also known as a bulla of King Hezekiah. A seal impression of a two-winged sun disk flanked by ankh symbols and containing a Hebrew inscription that reads "Belonging to Hezekiah, (son of) Ahaz, king of Judah." The bulla was discovered along with 33 other stamped bullae during the wet-sifting of dirt from a refuse dump located next to a 10th-century BCE royal building in the Jerusalem Ophel. It was discovered by excavations led by Dr. Eilat Mazar. The reason why this is evidence, proof of evidence of what King Hezekiah witnessed what did to the sun, was a miracle event.

<https://madainproject.com>

According to Isaiah 38:8, Hebrews 11:34, and 2 Kings 20:1-11, Isaiah came back to visit King Hezekiah again (Yes, this is the same king's name which the two-winged sun disk was made during his time), because Hezekiah prayed. The first prayer he has spoken had glorified the defeat of Sennacherib's army and the second prayer was about his welfare illness health to

death. send Isaiah back to visit Hezekiah again, with the good news. The good news is that he would not die. also gave Isaiah the answer he knew Hezekiah will ask for proof. When King Hezekiah asked Isaiah for proof, Isaiah reply by asking Hezekiah "Do you want the shadow of the sun to go

forward ten steps or back ten steps?". King Hezekiah replied to the prophet Isaiah for the shadow to go backward ten steps. He did move the sun backward. Hezekiah was amazed to see how the sundial shadow went backward 10 steps. The symbols royal seal of the sun and the two-winged disk are proof of evidence that Hezekiah is the real person. A real historical ancient king who saw what did to the sun. He is one of the famous royal kings written in many historical books other than scripture books. We cannot deny all this, especially the miracle event King Hezekiah saw and how he ends up living another 15 years after he was ill to death.

New Added Evidence

By mid-2023, I discovered another interesting thing I haven't paid attention to. What I have now noticed was about the sunlight map of the Earth. Notice the shape of the sunlight that shines on the area of the Earth and how it changes every month. I noticed between March/April and Sept/Oct month, have the same perfect shape. While other

seasons months during summer and winter sunlight, both seasons of sunlight appear shape opposite. Far up in the north on the Northern Hemisphere side, in the Arctic Zone entire summer months, they get full sunlight all day. While the Southern Hemisphere in the Arctic Zone gets a full night. Until the winter season, the Southern Hemisphere side in the Arctic Zone will get full sunlight and the Northern Hemisphere in their Arctic Zone will get full night during the entire winter season months. Here the YouTube video to watch how it change:

<https://youtu.be/pgEd4a2AZQU>

This sunlight map shows me another reason why the Earth is a spherical shape. Because in reality, if the sunlight shines on a flat paper map or flat planet, the sunlight would not form a shape like what we see above photo. It would be more like using a flashlight shine on a wall of a world map.

So far, all the resource information I have provided here is just enough to proof why the Earth dose NOT move. We simply cannot ignored all of these evidence. Most of all, how we have see a scripture tells us about the sun and moon that stood still and it did move backward. While people were still standing on Earth. Because the reality is, we on Earth are at the center of the universe. This is probably why ~~HE~~'s will set HIS throne on Earth. While everything HE created the universe; that moves around the celestial pole of the earth is HIS resting kingdom place.
